

Protection You Trust. Durability You Can Count On.

BRAWN™ PLUS

BRAWN™ Plus is a next-generation structural lumber solution engineered to protect your product and investment. Designed specifically for RV manufacturers and home builders, BRAWN™ Plus offers a comprehensive line of enhanced lumber solutions, including trusses and pre-assembled components that outperform traditional wood.

ECO-FRIENDLY & NON-HAZARDOUS

Enhanced with water-based, non-toxic penetrating formulas safe for humans, animals, and the environment.

TOPICAL PERMANENT WOOD ENHANCEMENT

Our proprietary wood stabilizer process enhances durability and stability resulting in a cleaner, safer, and more efficient building material.

ALL-IN-ONE PROTECTION

Built-in resistance to:

- Moisture
- Mold
- Rot
- Decay

BEST-IN-INDUSTRY WARRANTY

Backed by a comprehensive 3 year warranty that covers mold, rot and decay.

Applications

- RV Manufacturing
- Commercial & Residential Framing
- Trusses and All Dimensional Framing Lumber
- Indoor and Limited Exterior Use

Product Availability

BRAWN™ Plus is available in:

- All standard framing sizes
- Custom trusses and structural components

Performance Advantages

- Straighter and longer lasting
- Improved dimensional stability
- Non-corrosive to metal fasteners
- Recyclable and low carbon footprint
- Meets UL GREENGUARD Gold and IAQ building standards
- Proven zero mold growth in ASTM D-3273 and D-5590 testing.

CHOOSE BRAWN™ PLUS

BRAWN™ Plus delivers unmatched protection and performance, enabling safer and higher quality manufacturing and long-term structural integrity. BRAWN™ Plus is the smarter, durable, and more sustainable choice, offering unmatched protection from mold, rot, and decay. It's the future of framing, built for today's demands.
