

Engineered for Strength. Designed for Performance.

BRAWN™ HD SERIES DOORS

The BRAWN™ HD Series Doors are engineered for superior strength, impact resistance, and long-term performance, making them the ideal choice for enclosed cargo trailers. Designed with rugged applications in mind, these heavy-duty trailer doors ensure maximum security and reliability in demanding environments.

ADVANCED ENGINEERING

- Heavy-Duty Hinges maintain rigidity and reduce wear.
- Riveted Fasteners are aerospace-inspired for superior hold.
- MiTek® Nail Plates reinforce wood or composite frames.
- Aluminum Composite Panel (ACP) exterior option prevents oil-canning and boosts visual appeal with multiple color options.

DURABLE & SUSTAINABLE

- Resists dents, scratches, and wear, even in extreme temps, lowering maintenance.
- Superior insulation keeps interiors cooler and reduces noise.
- High-gloss panels deliver a clean, professional look.
- Prevents racking and enhances overall strength.
- Upgraded design eliminates rot and decay.

CUSTOM DOOR SOLUTIONS

We custom-build to your specs:

- Vented Doors
- Fuel Doors
- Mousehole Doors
- Custom Sizes & Materials

CHOOSE BRAWN™ HD SERIES DOORS

A more durable, better insulated, and visually superior trailer — from the doors to the full body. BRAWN™ HD Series Doors deliver unmatched strength and performance that keep your trailers looking and working better, mile after mile.
