

Rugged Performance. Refined Finish.

BRAWN™ SUPERSTRATUM™ FLOOR PANEL

The BRAWN™ SuperStratum™ Floor Panel delivers exceptional durability, strength, and visual appeal for heavy-duty trailer flooring. Sleek, strong, and built to last — SuperStratum™ redefines performance flooring for the trailer industry.

DURABLE

- Virtually impervious to moisture – power washer approved
- Resistant to rot, cracking, shrinking, and warping
- Exceptional abrasion and impact resistance to keep floors looking new
- Engineered Structural Panel (ESP) substrate offers unmatched stiffness and strength
- High-Density Polyethylene (HDPE) overlay is laminated to the ESP with Polyurethane moisture-resistant adhesive

PREMIUM QUALITY

- Dual-layer construction with embossed, non-skid surface
- Customizable sizes and colors to meet customer needs
- Designed for superior longevity and consistent performance

EASY TO HANDLE & INSTALL

- Lightweight yet structurally strong
- Easy to cut and fit using standard tools
- Provides a consistent, flat surface for installation
- Designed to integrate seamlessly with trailer assembly lines

PERFORMANCE ADVANTAGES

The BRAWN™ SuperStratum™ Panel provides a premium solution for trailer manufacturers demanding reliability and finish.

Its dual-layer design combines an engineered base with a tough laminated top surface for improved functionality, aesthetics, and durability.

Perfect for hauling snowmobiles, ATVs, and other wheeled equipment, SuperStratum keeps its look and integrity over time.

Available in multiple finishes, including:

- Quad tread finish
- Quad tread finish with protective backing

CHOOSE BRAWN™ SUPERSTRATUM™

Engineered to outperform traditional wood flooring, the BRAWN™ SuperStratum™ Floor Panel combines strength, moisture resistance, and long-term durability. Customizable sizes and colors, and built for heavy-duty performance and premium appeal—offering your customers a trailer floor like no other.
